## PROFESSIONAL SUMMARY

Full Stack Software Engineer with 2+ years of experience building scalable web applications using MERN stack. Specialized in React.js frontend development, RESTful API design, and AI-powered solutions. Proven track record of delivering responsive, high-performance applications with focus on clean architecture and optimal user experience.

## TECHNICAL SKILLS

**Languages:** JavaScript (ES6+), HTML5, CSS3, SQL

**Frontend:** React.js, Bootstrap, Tailwind CSS, Responsive Web Design, Component-Based Architecture

**Backend:** Node.js, Express.js, RESTful APIs, MongoDB, Database Design

**Tools & Technologies:** Git, GitHub, npm, Webpack, AI Prompt Engineering, Agile/Scrum

**Core Competencies:** Full Stack Development, UI/UX Implementation, Performance Optimization, Cross-Browser Compatibility

## PROFESSIONAL EXPERIENCE

### Frontend Web Developer & AI Prompt Engineer

Nov 2025 – Present

*CapOasis Technology (Freelance)*

*Nashik, Maharashtra*

- Engineer modern, responsive web interfaces using React.js, focusing on component reusability and performance optimization
- Implement AI-powered features through prompt engineering to enhance user experience and application efficiency
- Design and develop scalable, mobile-first applications ensuring cross-device compatibility and accessibility standards
- Optimize frontend performance achieving 30%+ faster load times through code splitting and lazy loading techniques

### Software Engineering Intern

May 2025 – Dec 2025

*InnovationsHub Services Pvt Ltd*

*Nashik, Maharashtra*

- Developed full stack web applications using MERN stack, collaborating with cross-functional teams
- Built RESTful APIs with Node.js and Express.js, integrating MongoDB for efficient data management
- Implemented responsive UI components with React.js, improving user engagement metrics by 25%
- Participated in code reviews and agile sprints, contributing to best practices and technical documentation

### Software Developer (React.js)

Mar 2023 – Nov 2023

*Qurinom Solutions*

*India*

- Architected and deployed production-ready frontend applications serving 1000+ daily active users
- Designed and implemented RESTful APIs for attendance management system, reducing manual processing time by 40%
- Developed company's official website and social media platform using React.js with optimized state management
- Created reusable component library reducing development time by 35% across multiple projects

## KEY PROJECTS

**Task Manager Application** – Developed full-stack task management system with React.js and Node.js, featuring CRUD operations, priority-based task organization, deadline tracking, and user collaboration with real-time updates

**Attendance Management System** – Built comprehensive REST API backend with Node.js/Express and MongoDB for automated attendance tracking, featuring role-based access control and real-time reporting dashboard

**E-Commerce Platform** – Developed full-featured online shopping website with React.js frontend, implementing product catalog, shopping cart, user authentication, and payment integration with responsive design

**Social Media Application** – Engineered social networking platform with user profiles, post creation, real-time interactions, and news feed using MERN stack with JWT authentication and optimized database queries

## EDUCATION

### MBA in Information Technology

Expected 2026

*IMRT*

*Maharashtra, India*

### Bachelor of Computer Application (BCA)

Jan 2019 – Jul 2022

*Dr. Babasaheb Ambedkar Marathwada University (BAMU)*

*Aurangabad, Maharashtra*

### Full Stack MERN Developer Certification

Jun 2022 – Nov 2022

*Skillhub Solution*

*India*

## ADDITIONAL INFORMATION

---

**Interests:** Open Source Contribution, AI/ML Applications, Web Performance Optimization, Cloud Technologies

**Languages:** English (Fluent), Hindi (Native), Marathi (Native)
